

Water Filtration Systems

FEEL NOTICEABLY HEALTHIER!

You care deeply for your family and want to make sure everyone is safe and healthy. Start with a Water Filtration System from Al Terry Plumbing & Heating!

BENEFITS

- Significantly reduce contaminants and corrosion from your family's water.
- Prevent rust stains in sinks, tubs, dishwasher and toilets.
- Eliminate sediment particles from well water.
- Remove foul tastes and odors from your water including chlorine and the common "rotten egg" odor.
- Peace of mind knowing your family is drinking and using clean water.

SAVINGS

If your family is consuming 1 gallon of bottled water daily, then a water filtration system can pay for itself in as little as a year*

to schedule your
water test today.
Only **\$59**

*Based on drinking approximately a gallon of bottled water per day at a cost of \$7.50 per gallon.

Water Softeners

YOUR WATER MAY NOT BE AS CLEAN AS YOU THINK!

Hard Water refers to amount of scale forming minerals present in your water supply. The minerals can build up as you use water.

You may find that ugly scaly residue is on your plumbing fixtures, dishes and you have to use extra soap and shampoo to stay clean.

BENEFITS

Your family, laundry, and dishes will all feel noticeably cleaner. In addition, you can save money on not using so much soap and shampoo.

A water softener from Al Terry Plumbing and Heating can solve these problems for your family.
